PROFESSIONAL SUMMARY

Mobile software engineer with 6+ years of experience building React Native applications for iOS and Android, along with native Android and Flutter development. Experienced in taking client projects from proof of concept through app-store release, including API integrations, CI/CD and production monitoring. Also develops backend services and AI workflows using Node.js and FastAPI.

TECHNICAL SKILLS

Mobile & web: React Native, Flutter, native Android, native iOS, ReactJS

Languages & state management: TypeScript, JavaScript, Java, Python, Dart, Redux, Zustand

APIs & integrations: REST APIs, GraphQL, Node.js, FastAPI, Firebase, Firebase Cloud Messaging, Stripe, SignalR, Google Maps, Google Places API, SQLite

Development & delivery: Azure DevOps, CI/CD, Git, NPM packages, Firebase Crashlytics, Sentry, SonarQube, Jira, Trello

AI & automation: RAG, MCP, A2A, multi-agent systems, n8n, LLM fine-tuning, Lovable

PROFESSIONAL EXPERIENCE

MobMaxime (Eventtan Private Limited) Apr 2023 – Present

Software Engineer (Mobile) / AI Engineer | Ahmedabad, India

- Lead client projects from proof of concept through iOS and Android app-store release, primarily using React Native.
- Develop mobile applications, ReactJS admin panels and Node.js / Python (FastAPI) APIs, including work on Invitem.
- Build reusable NPM libraries and maintain Azure DevOps CI/CD, Firebase Crashlytics and Sentry for releases and monitoring.
- Work on AI features using RAG, MCP, A2A, multi-agent systems, n8n and fine-tuned models.

Innvonix Technologies LLP Jan 2022 – Apr 2023

React Native Developer | Ahmedabad, India

- Developed cross-platform iOS and Android apps using React Native, REST APIs and Firebase services.

Fancom and Binary Geckos Jul 2020 – Dec 2021

React Native and Android Developer | Rajkot, India

- Built React Native and native Android applications with API integrations and local data storage.

AP Groups Jan 2020 – Jul 2020

Junior Android Developer | Ahmedabad, India

- Supported development, maintenance and updates to native Android applications.

SELECTED PROJECTS

Invitem — Event Management Platform | Project Lead

- Built a React Native event invitation and RSVP app with guest lists. Integrated Firebase Cloud Messaging, Stripe, SignalR chat and Google Places API; used SonarQube and delivered a ReactJS admin panel.

Healthcare Management Platform | Project Lead

- Built a React Native healthcare staffing app with shift scheduling, geofenced attendance, credential management and timesheets. Integrated SignalR chat, Firebase notifications, PDF signing and Azure DevOps build automation.

AWARDS & RECOGNITION

Best Team Player Award | MobMaxime Quarterly Excellence Awards, Q2 2026 (April–June 2026)

AI Session Speaker Certificate | Recognized for presenting an AI-driven technology session

EDUCATION

Bachelor of Computer Engineering | RK University | 2020
